Updated Weight Clause:

New Zealand Civil Aviation Authority require that all operators must ensure accurate known weight of all individual passengers, on this basis we can no longer confirm your clients bookings until we have received their ACCURATE individual passenger weights, although we are aware that this may create some

inconvenience we would appreciate your assistance here. It is preferable that clients provide weights in their own unit measurements IE pounds for the US market or Kilograms for the European Market. It should also be noted to the client that as part of this requirement they will be weighed upon arrival and any deviation from their declared weight (within reason) may result in a flight being re scheduled or a surcharge being applied. If an individual passenger's weight exceeds 110kgs a surcharge may apply, and any passenger (Helicopter only) exceeding 135kgs as weighed by Volcanic Air will be required to pay two adult fares:

Comments
